

CODY × YELLOWSTONE

Aug 6–11, 2026 · Base: 1822 Bleistein Ave · Grant Village Sat night · Rodeo Monday

Times: **ARR** = pull in · **LV** = wheels rolling · **DEP** rows are drives/flights (second time = arrival). Chips like “→ 45 min” = drive time to reach that stop.

Day 1 · Thu Aug 6 — Travel In

GSP → DEN → COD · **land 10:43 PM** · sleep: Bleistein

TODAY’S KIT

Carry-on: chargers + one USB-C cable · Turo app signed in, **license uploaded** · Grant conf screenshot (20977608) · offline maps, park app, playlists downloaded · headlamp packed

☐ **DEP 4:15 PM Depart GSP — UA1866 to Denver**

ARR 5:55 1 hr 40 flight → Denver

Land DEN 5:55 PM. Offline maps, park app, playlists, podcasts downloaded before boarding. Grant confirmation screenshot in photos: **20977608**.

☐ **ARR 5:55 PM Denver layover — eat a real dinner**

LV 9:05 DINNER · 3 hrs
3 hr 10 layover + dinner · *board 9:05, fly → Cody*

Nothing in Cody is open when you land. This is dinner. Board UA5132 at 9:05.

☐ **ARR 10:43 PM Land Cody — grab the truck (contactless)**

LV 11:05 5 min
~20 min truck pickup + photos · *5 min drive → Bleistein*

GMC Sierra 1500 waiting at the airport — Amber texts the exact spot + key location day-of (plate **11T482K**).
Before driving: full walkaround photos/video + odometer shot in the Turo app, even at 11 PM — night pickups are exactly when you skip this and regret it. Body clock says 12:43 AM.

If energized: Walmart run tonight — cooler, ice, water, sandwich stuff, thermos, snacks.

MAP 1822 Bleistein Ave Cody WY · 44.5215, -109.0687

☐ **AT 11:30 PM Bed. No alarm.**

lights out

Tomorrow starts when it starts. Errands first, mountains after.

Day 2 · Fri Aug 7 — The High Loop: Beartooth → Lamar

~220 mi · ~6 hrs driving · home ~10:15 PM · sleep: Bleistein

TODAY'S KIT

Bear spray (buy first) · cooler + ice + lunch/dinner makings · water jugs · grandpa's binoculars · fleece + beanie (Lamar goes cold at dusk) · rain shell · headlamp · camp chair · sunscreen + hat · bug spray · thermos · full tank

☐ ARR 7:30 AM Errands run

LV 8:30

BREAKFAST · HOUSE

1 hr errands + load-up · *then roll out*

One Walmart mission (~25 min, ~\$110–140), then gas. If Thursday-night energy allowed an early run, this is just the gap-fill.

COOLER + DRINKS

Cheap cooler (\$15–25, gets abandoned Tuesday) · 2 bags ice (restock Sat) · water gallons ×3–4 · electrolyte packets / Gatorade · Lamar truck-bed drinks

SANDWICH OPERATION

Bread or tortillas · deli meat + cheese · PB + jam · apples/clementines · trail mix · jerky · chips · granola/protein bars (glovebox stash) · grab-breakfast for Sunday 6:30 AM at Grant (pastries / oats cups)

COFFEE KIT

Thermos (\$10, if the house is bare) · instant coffee you can respect (Via or similar — the Sunday huckleberry latte is the reward)

SAFETY + SUNDRIES

Bear spray ~\$50 (if Walmart's wall looks stale, Sunlight Sports downtown opens at 9) · sunscreen SPF 30+ · SPF chapstick · small bug spray · blister bandages / moleskin + ibuprofen · wet wipes + paper towels · zip-locks (sandwiches + phone at the Firehole swim)

JUDGMENT CALLS

Camp chair \$10–15 (four hours in Lamar says yes) · cheap sandals/water shoes if unpacked · road candy for Chief Joseph at 9:45 PM

Then: **full tank** on the way out of town.

☐ DEP 8:30 AM Depart — Chief Joseph Hwy

ARR 9:25

55 min

55 min drive → Dead Indian Pass

North on WY-120, west on 296. Fresh chip seal this summer — easy on loose gravel.

☐ ARR 9:25 AM Dead Indian Pass Overlook

LV 9:50

20 min stop

25 min at the overlook · *60 min drive → Beartooth Pass*

Walk it, don't just shoot it. Clarks Fork canyon and Sunlight Basin below — the country the Nez Perce ran in 1877. The wall to the northwest is where you're headed.

Beta: Big paved lot right at the summit — park anywhere, walk the low stone-wall rim to the interpretive signs at the far end. Best photo angle is from the little knob just past the signs. 15–20 min is the right dose; the road down the other side is the show's second act.

MAP Dead Indian Pass Overlook · 44.7448, -109.3862

☐ ARR 10:50 AM **Beartooth Pass — 10,947 ft**

LV 11:50 → 60 min · a full hour on foot
a full hour on the tundra · 25 min drive → Rock Creek Vista

LOOK FOR

Mountain goats on the crags · pikas squeaking in talus · peak wildflowers · touchable snowfields

The "another planet" report. Wander off the pullout into the tundra — most people give this four minutes. Can be 45°F and blowing while Cody bakes; the layer lives in the truck. (Cruise past Beartooth Lake without stopping — its shore walk is Monday's show with mom.)

Beta: Two pull-offs flank the actual summit sign — use the bigger one on the west side. Walk north off the pavement onto the tundra (it's open travel up here, stay on rock/gravel where you can). Scan the crags south of the road for goats and listen for pika 'eep's in every talus pile. The West Summit overlook a mile further has the classic switchback-view pullout if you want one more stop.

TRAIL · NO FORMAL TRAIL NEEDED

Park the pullout and wander the open tundra 10–20 min on rock and gravel (stay off the fragile plant mats). Want a marked path instead? The Gardner Lake trailhead 0.5 mi down the east side drops to an alpine lake — but save the legs for Trout Lake this afternoon.

MAP Beartooth Pass · 44.9705, -109.4655

☐ ARR 12:15 PM **Rock Creek Vista — TURNAROUND**

LV 12:30 → 25 min
15 min at the rail · 55 min drive → Cooke City

~15 min here, then the hour back over the pass — Cooke City lunch at 1:25. 2,000-ft look down the glacial canyon. This is the top of the day — no Red Lodge descent. Retrace west.

Beta: Big lot, and the overlook is a 300-yard paved path — easiest jaw-drop of the trip. Look straight down Rock Creek's U-shaped glacial canyon; the road you're NOT taking today snakes down its wall. Restrooms here — use them.

MAP Rock Creek Vista Point · 45.0517, -109.4046

☐ ARR 1:25 PM **Cooke City — lunch · GAS · bathroom**

LV 2:10 LUNCH · → 55 min · Miners Saloon
45 min lunch + gas · 25 min drive → NE Entrance

Sit-down burger, no rush. **Last fuel before home.** The full pre-Lamar checklist, handled by a frontier town of ~100.

Beta: Everything is on the one main street: Miners Saloon mid-town on the north side (order at the bar, cash preferred historically), gas at the stations on either end of town — hit whichever's open, they keep frontier hours. Fill the water bottles too; next reliable everything is home.

MAP Miners Saloon Cooke City MT · 45.0864, -109.9330

☐ ARR 2:35 PM **Northeast Entrance**

LV 2:40 → 25 min
5 min at the gate · 20 min drive → Trout Lake

\$35 pass (7 days, keep the receipt) if not already bought. Quietest gate in the park.

☐ ARR 3:00PM **Trout Lake**

LV 4:15 → 20 min · ¾ mi steep · 30 min at the water
1 hr 15 hike + lakeside sit · 15 min drive → Lamar

LOOK FOR

Big cutthroat cruising the shallows · otters (reliable spot) · spray on hip

Steep climb through Douglas fir to absurdly clear water. First real payoff of the Hokus. Sit and watch the fish patrol.

Beta: Trailhead is a small unsigned-feeling pullout on the north side of the road — if you hit Pebble Creek you went ~1.5 mi too far. The climb is steep but short (15 min of work). At the top, go LEFT around the lake — the inlet creek on the far side is where cutthroat stack and otters hunt. The downed logs along the west shore are the sitting spots.

TRAIL · TROUT LAKE TRAIL · 1.2–1.5 MI RT · ~380 FT · 45–75 MIN

Switchback up through the firs ~15–20 min to the lake. At the top take the shoreline path LEFT (clockwise): ~0.6 mi around, hitting the inlet creek on the far side (stacked cutthroat, otter territory) and the west-shore logs before closing the loop at the outlet. Same steep trail back down.

MAP Trout Lake Trailhead Yellowstone · 44.8996, -110.1223

☐ ARR 4:30PM **LAMAR VALLEY — the evening shift**

LV 8:15 DINNER · COOLER · → 15 min · until sunset 8:15
3 hr 45 in the valley · then the dark drive home

LOOK FOR

Bison herds backlit after 6:30 · pronghorn on the flats · wolves at dusk (the lottery) · grizzly at treeline · scan with grandpa's binoculars

Cruise the valley floor slow, then park where the spotting scopes cluster (pullouts between Slough Creek and Lamar Canyon). Walk up, say "anything moving?" — they'll share the scope.

Cooler dinner from the truck bed. Nearly four hours of just being here. The most in-the-experience block of the trip.

Beta: The prime stretch is the ~6 miles between Lamar Canyon and Slough Creek — big gravel pullouts on both sides. Park FULLY off pavement, engine off, voices low. Glass the river corridor and the treeline seams, not the open middle — that's where things move at dusk. Vault toilets at the Slough Creek road junction and Lamar Canyon. If scopes cluster somewhere, that's not a suggestion, it's intel: join them.

MAP Lamar Valley (prime pullout stretch) · 44.8977, -110.2245

☐ DEP 8:15PM **Depart — Chief Joseph in the dark**

ARR 10:15 ~2 hrs · deer-speed
2 hr drive → Cody, deer-speed

Elk own this road at night. Home ~10:15. Tomorrow departs at 6 or 7 — both pre-approved. Pack the small overnight bag before bed.

Day 3 · Sat Aug 8 — Canyon + Washburn → Grant

~140 mi one-way · ~3 hr 50 driving · out the door 7:30 · sleep: **Grant Village**

TODAY'S KIT

Overnight bag (change + toiletries) · swimsuit + microfiber towel + sandals (plunge tonight, Firehole tomorrow) · daypack: 3L water, summit lunch, shell, fleece, beanie, sunscreen, bear spray, headlamp, charger, binos · cooler restocked + fresh ice · buy tomorrow's coffee + grab-breakfast tonight

☐ DEP 7:30 AM **Depart with overnight bag**

ARR 8:35 BREAKFAST · QUICK · sleep-in default

65 min drive → East Entrance

Alarm at 7 — the sleep-in is now the plan, not the concession. (Feeling crazy? The -90 button on the site restores the 6:00 launch and buys back Lake Butte + emptier boardwalks.) Big duffel stays at the house. Cooler restocked, daypack loaded: water x3, lunch, shell, fleece, beanie, headlamp, spray, charger, binoculars.

☐ ARR 8:35 AM **East Entrance + Sylvan Pass**

LV 8:55 → 65 min

20 min gate + pass · *50 min drive → Mud Volcano*

LOOK FOR

Grizzly on the Sylvan corridor — one of the park's best roadside bear stretches

Show the pass. If on the early schedule: **Lake Butte Overlook** spur (+15 min) — whole lake below, and on clear mornings the Tetons on the far southern horizon. Wave hello.

MAP Lake Butte Overlook · 44.4933, -110.2668

☐ ARR 9:45 AM **Mud Volcano + Dragon's Mouth**

LV 10:25 → 50 min · full loop ~40 min

40 min boardwalk loop · *20 min drive → Canyon*

LOOK FOR

Dragon's Mouth growling (steam collapsing in the cave) · bison lounging on warm ground

The park's most acidic, gassiest ground. Do the hillside stairs, not just the roadside pots.

Beta: Lot is on the west side of the road — Dragon's Mouth is 100 yards from your bumper, growling. Walk the loop CLOCKWISE: up the stairs to Churning Caldron and Sour Lake first, down past Black Dragon's Caldron. Bison bed down on the warm ground here and have right-of-way everywhere — 25 yards minimum, reroute around them.

TRAIL · MUD VOLCANO LOOP · 0.7 MI · ~35 MIN

Clockwise from the lot: stairs up to Churning Caldron and Sour Lake on the ridge, then down past Black Dragon's Caldron and Mud Geyser, finishing at Dragon's Mouth beside the parking.

MAP Mud Volcano Yellowstone · 44.6249, -110.4382

☐ ARR 10:45 AM **GRAND CANYON — walked, not driven**

LV 1:15 PM → 20 min · ~2.5 hrs
2 hr 30 walking the rims · 12 min drive → Dunraven Pass

LOOK FOR

Ospreys nesting on canyon spires · mid-morning rainbows in the falls mist

South rim: Artist Point (the postcard — 308-ft falls in yellow-pink hydrothermally cooked rock), then the **Point Sublime trail** — the $\frac{3}{4}$ -mile 95% of visitors skip.

North rim (10-min drive): Red Rock / Lookout Point, Inspiration Point, then the **Brink of the Lower Falls** switchbacks — stand on top of the falls as the river goes over under your feet. Steep back up; the Hokas' first real test.

Beta: Sequence: South Rim Drive to the Artist Point lot (biggest in the area), do the Point Sublime out-and-back from the far end of the viewing deck, then drive back around to the one-way North Rim Drive — it serves Brink of the Lower Falls first, then Lookout/Red Rock, then Inspiration Point. The Brink trail drops ~600 ft in switchbacks; count on 20 sweaty minutes back up.

TRAIL · CANYON RIMS · 4 SHORT WALKS · ~3.5 MI TOTAL · ~2.5 HR

1) Artist Point: 200-yd paved path from the lot, then the Point Sublime Trail east from the far end of the deck — 1.25 mi one-way, level rim walking; out-and-back as far as it's giving (~50 min full RT). 2) Drive to the one-way North Rim Dr: Brink of the Lower Falls Trail, 0.7 mi RT, ~600 ft of switchbacks, 35–40 min. 3) Lookout Point (steps from its lot); the Red Rock Point drop below it is 0.4 mi RT / ~30 min — optional, skip if the legs are budgeting for Washburn. 4) Inspiration Point: 5–10 min from the last lot.

MAP Artist Point · 44.7201, -110.4794

☐ ARR 1:30 PM **Mount Washburn — summit lunch**

LV 4:40 LUNCH · SUMMIT · → 12 min · 6.4 mi RT · down by ~4:45
3 hr 10 hike + summit lunch · 20 min drive → Hayden

LOOK FOR

Bighorn sheep near the summit (resident band) · marmots · storm clouds after 2 = descend

~1,400 ft on a wide old road-grade. **Eat lunch on top, 30 unhurried minutes** — 10,243 ft, the whole park in 360°, Tetons on the horizon. This week's forecast shows 0% storm chance, so the afternoon summit is safe; if clouds are stacking by noon anyway, invert the day — hike first, canyon after.

Beta: Dunraven Pass lot sits right on the road summit and fills by late morning — at your 1:30 arrival, circle patiently or use the overflow pullouts just north. The trail is the old road grade the whole way: wide, steady, impossible to lose. Bighorns usually hang on the ridgeline just below the summit switchbacks. The fire lookout on top has a public observation room, restroom, and windbreak — lunch inside if the wind's rude.

TRAIL · MOUNT WASHBURN TRAIL VIA DUNRAVEN PASS · 6.4 MI RT · ~1,400 FT · ~3 HR WITH LUNCH

One obvious old road-grade the entire way — broad switchbacks up the south ridge, no junctions to miss (a spur merges in from the Chittenden Road side near the top; just keep climbing). Budget ~1 hr 45 up, 30 on the summit, ~1 hr down. Views open at the first switchback and never stop.

Sacrifice-order note: skipping the summit entirely is pre-approved. Canyon + early check-in is still a great day. The crown jewel is tomorrow regardless.

MAP Dunraven Pass Trailhead · 44.7796, -110.4494

☐ ARR 5:00 PM **Hayden Valley — golden hour, southbound**

LV 5:35 → 20 min · rolling slow
35 min rolling the valley · 25 min drive → *Lake Hotel*

LOOK FOR

Bison jams (pay the toll happily) · elk + grizzly on far treelines

Windows down through the old lakebed. The dusk pass happens en route — no backtracking.

Beta: The unofficial ‘Grizzly Overlook’ pullout — west side, ~4 miles south of Canyon, the one with the long wooden rail — is where the evening scope crowd sets up. If cars are stacked at any pullout, that’s a wildlife jam: roll past slow or join, never stop in the lane.

☐ ARR 6:00 PM **Lake Yellowstone Hotel — porch dinner**

LV 7:10 DINNER · → 25 min · unhurried
1 hr 10 porch dinner · 35 min drive → *Grant*

1891 colonnade, sunroom, sometimes a string quartet. Dinner, not a stop.

Beta: Park in the angle spots out front. The formal dining room takes reservations (307-344-7311 same-day sometimes works) but the sunroom bar seats walk-ins with the same lake view — order there, zero planning required. The porch rockers out front are free to anyone; claim two for the pre-dinner sit.

MAP Lake Yellowstone Hotel · 44.5514, -110.4003

☐ ARR 7:45 PM **Grant Village — CHECK IN**

SWIM #1 · OPTIONAL · → 35 min · conf 20977608
evening is yours — plunge + stars · sleep here

Deluxe Lodge, 1 Queen. Check-in desk after 4. Solve tomorrow's coffee tonight (thermos + cooler — nothing opens early).

Swim #1 (optional): the lakeshore plunge. Yellowstone Lake runs ~55–60° — this is a 30-second in-and-out off the Grant shore before dinner settles, not a swim. Cold-shock rules: waist-deep, dunk, out, towel, bragging rights forever.

Beta: Check-in is the registration building as you enter the village. For the plunge + sky show: the beach by the amphitheater/marina area is a 5-minute walk east from the lodge buildings — sand entry, no rocks. Face south over the water for the Milky Way core; give your eyes 10 dark minutes and it triples.

~10:00 PM: walk to the lakeshore and look up. One of the darkest skies in the lower 48 — the Milky Way core is out. Ten minutes minimum. Then bed.

MAP Grant Village Lodge Yellowstone · 44.3931, -110.5581

Day 4 · Sun Aug 9 — Geyser Dawn Sweep → Home → Mustangs

~215 mi · ~4 hr 15 driving in six short hops · the crown-jewel day · sleep: Bleistein

TODAY'S KIT

Thermos coffee + packed breakfast · swimsuit + towel + sandals (Firehole) · water ×3 · sunscreen + SPF chapstick · bear spray (Fairy Falls walk) · binoculars for the mustangs · cooler lunch

☐ DEP 6:40 AM Depart Grant

ARR 6:45 BREAKFAST · PACKED · coffee from thermos

5 min drive → West Thumb

Checkout is a key-drop. Five minutes to the reason for everything.

☐ ARR 6:45 AM WEST THUMB — dawn steam

LV 7:25 → 5 min · ~1 hr

40 min empty boardwalk · 35 min drive → Old Faithful

LOOK FOR

Black Pool's impossible blue · Abyss Pool · Fishing Cone in the lake · elk browsing basin margins

The moment the room bought. Fork RIGHT from the parking path (friend's beta) down to the lakeside walk first. Steam columns off springs draining into the cold lake, low sun across the water, boardwalk empty, ground gurgling.

Beta: One lot at the end of the short spur; boardwalk is a figure-8 — your fork-right move puts you on the lakeside leg first: Fishing Cone sits just offshore, then Black Pool and Abyss Pool (the two impossible blues) anchor the far corner. Full walk is ~0.6 mi. Elk often graze the basin edge at this hour — give them the boardwalk if they're on it.

TRAIL · WEST THUMB BOARDWALK · 0.6 MI FIGURE-8 · FLAT · 40–60 MIN

Fork RIGHT onto the lakeside leg first (Fishing Cone, Black Pool, Abyss Pool), then take the inner loop on the way back to the lot.

MAP West Thumb Geyser Basin · 44.4166, -110.5732

☐ ARR 8:00 AM Old Faithful + Upper Geyser Basin

LV 9:35 HUCKLEBERRY LATTE · → 35 min · ~1.5 hrs

1 hr 35 basin + Inn + latte · 15 min drive → Fairy Falls lot

LOOK FOR

Beehive Geyser if its indicator's going (better show) · Firehole River steaming

Over Craig Pass — the Continental Divide, twice. Check the eruption board on arrival, walk **Geyser Hill** while waiting. Then the Inn's 1904 log lobby — 76 feet of lodgepole gothic — and the **huckleberry latte** at the espresso cart. Buses land ~9:30 as you leave.

Beta: Park in the enormous main lot, then check the prediction board in the visitor center window first — it sets your sequence. Geyser Hill is the 1.3-mi boardwalk loop ACROSS the footbridge behind Old Faithful — if Beehive's indicator cone is spouting, drop everything and wait (10–15 min warning, taller than Old Faithful, no crowd). The Inn is free to wander: lobby, mezzanine, and the espresso cart is on the lobby's left side.

MAP Old Faithful Visitor Education Center · 44.4586, -110.8281

☐ ARR 9:50 AM **GRAND PRISMATIC — Fairy Falls Overlook**

LV 10:30 → 15 min · 0.6 mi walk · ~45 min
40 min walk + overlook · 15 min drive → *Firehole Canyon*

The single most otherworldly color you will ever see outdoors: 370 ft of boiling turquoise ringed in orange — thermophile bacteria mats, each ring a temperature band. Sun's high enough to fire it; the mob is 45 minutes behind you.

Beta: Use the Fairy Falls TRAILHEAD lot, 1 mi south of the Midway lot everyone fights over. Cross the steel bridge, follow the wide gravel road 0.6 mi, then the signed overlook spur climbs left ~100 ft to the platform. Same way back. Total ~1.5 mi — sandals fine, but the boardwalk-brain move is real shoes.

TRAIL · GRAND PRISMATIC OVERLOOK · 1.6 MI RT · ~105 FT · 40–50 MIN

Cross the steel bridge, follow the wide old roadbed 0.6 mi, then the signed overlook spur climbs LEFT ~0.2 mi to the platform. Running ahead of schedule? The main trail continues 0.8 mi to Fairy Falls itself — a 197-ft ribbon — adding ~1.6 mi RT / 45 min.

MAP Fairy Falls Trailhead · 44.5155, -110.8325

☐ ARR 10:45 AM **Firehole Canyon — Swim #2 (if open)**

LV 11:20 SWIM #2 · VERIFY FIRST → 15 min · 45 min
35 min swim window · 40 min drive → *Norris*

Thermally-warmed river (high 70s–80s°) in a lava canyon — the one warm swim in the park. **It was closed ALL of 2025** for high water, and 2026 status was unconfirmed at press time, so verify before counting on it:

1. Park app / nps.gov Alerts while you still have signal Saturday · **2.** Ask the ranger at the East gate or the Grant desk at check-in — they'll know instantly · **3.** The lot itself: towels on rocks = yes, barricade = scenic drive.

Drive the 2-mi Firehole Canyon spur regardless — canyon walls + Firehole Falls make it worth it even dry. If swimming: real current, no lifeguard, stay in the main pool with everyone else, sandals on (volcanic rock bottom).

MAP Firehole Swimming Area · 44.6293, -110.8630

☐ ARR 12:00 PM **NORRIS GEYSER BASIN — both loops**

LV 1:50 → 40 min · ~2 hrs
1 hr 50 both loops · 25 min drive → *Canyon fuel stop*

LOOK FOR

Steamboat's runoff channel (world's tallest geyser) · the hiss of Porcelain Basin

The finale — hottest, oldest, most volatile ground in the park. **Porcelain Basin first:** the alien one, a treeless bowl of vents and milky-blue runoff. Then Back Basin past Steamboat. Artists Paintpots (1-mi loop) optional en route if ahead of schedule.

Beta: Both loops leave from the little museum at the lot: Porcelain Basin (0.8 mi) drops north into the alien bowl — do it first — then Back Basin (1.5 mi) loops south past Steamboat (check its runoff channel: wet and steaming means it's been active) and Echinus. Noon lot takes patience; a spot always opens. Bookstore at the museum for the one souvenir that's not junk.

TRAIL · NORRIS LOOPS · 2.3 MI TOTAL · ~1.5–2 HR

Porcelain Basin loop first: 0.8 mi dropping north from the museum into the bowl, 30–40 min. Then the Back Basin loop: 1.5 mi — walk it counterclockwise so Steamboat and Emerald Spring come early, 45–60 min.

MAP Norris Geyser Basin · 44.7264, -110.7031

☐ DEP **2:15 PM** **Homebound — Canyon fuel → Hayden → East gate**

ARR 4:50 LUNCH · CANYON · ~2 hrs 10 total

2 hr 35 drive → Cody, fuel + Hayden pass en route

Snack + gas at Canyon Village, one last Hayden pass (bison don't check the clock), out over Sylvan. Cody ~4:50.

Beta: Canyon Village has gas AND the general store — this is the Wilcoxson's huckleberry ice cream stop (92-year park tradition, huckleberry is the correct flavor). Ten minutes, then wheels south.

MAP Canyon Village General Store · 44.7351, -110.4885

☐ ARR **6:00 PM** **McCullough Peaks mustangs — golden hour**

LV 8:35 → 25 min · dirt roads · skip if rain

2 hr 35 golden hour with the horses · 25 min drive → downtown

LOOK FOR

Wild horse bands · stallion posturing · foals · banded clay lighting up at dusk

East on 14/16/20 to the BLM two-tracks. The trip's last new landscape — desert badlands, nobody there.

Beta: Take US 14/16/20 east ~13 miles, then the signed BLM two-track entrances on the north side (Whistle Creek area). Any dry two-track works — drive until badlands surround you, then stop and glass the ridgelines and low draws; the bands move toward water at dusk. Stay 100+ ft from horses (they'll let you closer; don't). High-clearance happy, but turn around at anything rutted — no cell service out here.

MAP McCullough Peaks HMA (two-track entry) · 44.5583, -108.7379

☐ ARR **9:00 PM** **Walk downtown — Silver Dollar or Chamberlin**

DINNER · DOWNTOWN

nightcap · walk home

Live music with the wranglers, or the quiet bar where Hemingway signed the register in '32. You've earned either.

Day 5 · Mon Aug 10 — Chief Joseph + Beauty Lake with Mom + Rodeo

~155 mi · ~3 hr 40 driving · the gift day · sleep: Bleistein

TODAY'S KIT

Swimsuits worn under clothes · towels ×2 · water shoes/sandals · dry change for after · picnic makings + water ×4 · warm layer for BOTH of you (9,000 ft runs 20° cooler) · walking shoes · sunscreen + hats · binoculars · phone charged for photos · tonight: bags zipped, bear spray + leftover food staged with a note

☐ ARR 9:00 AM **Slow morning — coffee, reset**

LV 11:00 BREAKFAST · SLOW
2 hr yours · *then mom lands*

Sleep in. Optional solo move: the Buffalo Bill Center opens at 8 — an 8:30–10:30 visit fits before mom lands if the museum itch needs scratching. Otherwise it's the rain plan.

☐ ARR 11:00 AM **Mom lands — lunch + picnic grab**

LV 12:15 PM LUNCH · DOWNTOWN
1 hr 15 lunch + gather · *then roll out*

Quick downtown lunch, grab picnic supplies for the lake (or raid the cooler stash). Trip becomes a duet.

☐ DEP 12:15 PM **Roll out — Chief Joseph, your road**

ARR 1:10 55 min
55 min drive → Dead Indian Pass

Fourth time up for you — first for her. You're the guide now: point at where the wolves showed (or didn't).

☐ ARR 1:10 PM **Dead Indian Pass Overlook**

LV 1:25 zero-effort jaw-drop
15 min showing her the view · 20 min drive → Sunlight bridge

She steps out of the truck into the whole Clarks Fork canyon and Sunlight Basin. Midday light — different show than your morning passes.

MAP Dead Indian Pass Overlook · 44.7448, -109.3862

☐ ARR 1:45 PM **Sunlight Gorge Bridge**

LV 1:50 → 20 min · 2-min gasp
5 min gasp on the walkway · 40 min drive → Beartooth Lake trailhead

Highest bridge in Wyoming, over a slot gorge that makes everyone lean over the rail. New for you too — Friday skipped it on purpose.

Beta: Small parking pull-off on the west side just past the bridge — walk back ACROSS the bridge on the walkway and look straight down into the slot. 300 feet of gorge under your feet. Two minutes, permanent memory.

MAP Sunlight Creek Bridge WY · 44.7511, -109.5588

☐ ARR 2:30 PM **Beauty Lake walk — Beartooth Lake trailhead**

LV 4:15 SWIM #3 · THE HEADLINER · SNACKS · LAKESIDE · → 40 min · turn around anytime
1 hr 45 walk + swim + picnic · ~2 hr drive home (Irma at 6:45)

LOOK FOR

Peak August wildflowers · Beartooth Butte's striped face over the water · marmots on the granite · trout rising in Beauty Lake

Gentle rolling trail through meadows at 9,000 ft — gorgeous within ten minutes, Beauty Lake's granite bowl a mile-plus in. **She sets the pace and the turnaround.**

THE SWIM: Beauty Lake is the swimmable one up here — shallower than its neighbors, so the top few feet genuinely warm by August afternoons (brisk-but-doable, not plunge-only). Your 2:30–4:15 window is the warmest water of the day. Look for the sandy/granite shelf entries on the near shore — walk-in, no rock scramble. Suits under clothes so there's no trailhead changing act; mom can wade the shelf while you swim; stay near shore (it's still 9,400 ft — cold makes swimmers overestimate themselves). Out, towel, dry layer immediately: the breeze up there turns wet-and-happy into cold-and-done in five minutes.

Then the picnic on the granite, feet drying in the sun, trout rising. That's the trip's highlight reel, right there.

Beta: Trailhead is at the Beartooth Lake boat launch/campground turnoff — park by the ramp. The Beauty Lake trail starts along the lake's east shore, crosses the inlet creek early (rock-hop or ankle splash by August — water shoes shine here), then climbs gently through the meadows. At the junction, stay RIGHT for Beauty Lake. The sandy entries are where the trail first meets the lake.

TRAIL · BEAUTY LAKE TRAIL · ~2.8 MI RT · ~300 FT · ~1.5 HR WALKING AT MOM PACE

From the boat launch, follow Beartooth Lake's east shore north ~½ mi · rock-hop the inlet creek (water shoes shine) · cross the wildflower meadows · at the signed junction around the 1-mi mark stay RIGHT · Beauty Lake arrives ~1.4 mi in, and the first shoreline the trail touches has the sandy swim entries. Same trail back — and remember, turning around early anywhere on this is a complete hike.

Legs vote no at the trailhead? Clay Butte fire lookout is 5 min further — drive-up 360° panorama, hundred-yard walk. The day delivers at zero hiking.

MAP Beartooth Lake Trailhead · 44.9440, -109.5891

☐ ARR 6:45 PM **Irma Hotel — dinner**

LV 7:40 DINNER · home by ~6:15
55 min dinner · 5 min drive → rodeo grounds

Buffalo Bill's own hotel, prime rib, the cherrywood bar. She flew in this morning and ends the day having hiked the Beartooths — that's a story she keeps.

MAP Irma Hotel Cody WY · 44.5262, -109.0632

☐ ARR 7:45 PM **Cody Nite Rodeo**

LV 10:00 8:00 start · Buzzard's Roost side
2 hr 15 of rodeo · then home to pack

Landing right at showtime instead of early — fine, it runs nightly and the seats find you. The last night: tundra, wolves-country, canyon, geysers, mustangs, an alpine lake with mom — and now a rodeo.

Beta: Gates and ticket window at Stampede Park, 5 min west on Sheridan — buy at the gate, cash or card. Buzzard's Roost is the WEST grandstand: evening sun behind you, chutes in front. Get mom a seat back from the rail if dust bothers her; get yourselves there by 7:45 for the good rows.

MAP Cody Nite Rodeo · 44.5219, -109.1042

☐ AT 10:00 PM **Pack — truck goes back in the morning**

bags zipped · lights out

Bear spray stays at the house with a note — it cannot fly, even checked. Leftover cooler food too. Bags zipped tonight; drop-off deadline is 9:30 AM.

Day 6 · Tue Aug 11 — Travel Home

COD → DEN → EWR → GSP · land 11:03 PM

TODAY'S KIT

Boarding passes · every charger out of the walls · full tank before drop-off · Turo exit photos + fuel-gauge shot · Denver food money · patience for the EWR sprint

☐ ARR 8:15 AM **Fill the tank → drop the truck at COD**

LV 9:40 full tank required · drop by 9:30 · exit photos
1 hr 25 gas + drop-off + exit photos · *walk into the terminal*

Gas on Big Horn Ave ~8:15 (Turo requires full at return), then the truck goes back to **2101 Roger Sedam Drive** — keys per Amber's instructions, **final walkaround photos + fuel-gauge shot in the app**. An hour before the flight is genuinely plenty at COD.

MAP 2101 Roger Sedam Drive Cody WY · 44.5170, -109.0290

☐ DEP 10:10 AM **UA5079 → Denver 11:55**

ARR 11:55 LUNCH · DENVER
fly → Denver, land 11:55

Buy real food in Denver — the day is long.

☐ DEP 1:42 PM **UA1505 → Newark 7:35**

ARR 7:35 ⚠ 72-min connection
fly → Newark · ⚠ 72-min connection

Check arrival + departure gates before landing. Walk with purpose. If it goes sideways, United's next-morning GSP options are thin — patience is packed.

☐ DEP 9:27 PM **UA3681 → GSP 11:03 PM**

ARR 11:03 *fly → GSP · home 11:03 PM*

Home. Seven kinds of awe in the bag.

Reference

Bookings, orders, and the daypack

GRANT VILLAGE — SAT AUG 8

Confirmation	20977608
Room	Deluxe Lodge · 1 Queen (ADA roll-in shower)
Check-in / out	after 4:00 PM / by 11:00 AM
Rate	\$321 + tax (~\$370)
Address	24 Rainbow Loop, YNP
Lodges line	307-344-7311

SACRIFICE ORDER — PRE-SIGNED, ZERO GUILT

- Trout Lake · Paintpots · Firehole swim — drop freely
- Lake Butte spur + the 6 AM start (7 is fine)
- Washburn summit — canyon-only Saturday is still a great day
- **Nothing else.** Lamar, Grant, the dawn sweep, and mom day are the trip.

STANDING ORDERS

- Tank above half · gas at Cooke City (Fri), Canyon (Sun), Cody (always)
- Bear spray on hip beyond boardwalks · stays in Cody with a note on the 10th
- No cotton on mountain days · layers for 40° dawns → 90° afternoons
- Text mom the day's shape each morning before losing signal
- Storms build after 2 PM — summit early, descend when clouds stack
- Dark drives at deer-speed: Chief Joseph (Fri), Wapiti (any late return)
- Odometer photo at pickup · cap 1,000 mi · plan ~735 (~265-mi cushion)
- Thermopolis = rain card (~170 mi RT — still fits the cushion)

DAYPACK LOADOUT

- Water ×2 · lunch · rain shell · fleece · beanie
- Headlamp (fresh batteries) · bear spray · portable charger
- Grandpa's binoculars · swimsuit + small towel (Sunday)

NUMBERS & BACKUPS

- Xanterra lodges (Grant changes): 307-344-7311
- Turo host Amber texts pickup spot + keys day-of · truck lives at 2101 Roger Sedam Dr (COD)
- Turo #59595627 · GMC Sierra 1500 · plate 11T482K · **upload driver's license Wednesday** (app prompts 24 h before)
- Return full tank · no smoking, no pets in cab · \$.61/mi past 1,000
- Park emergencies: 911 from developed areas · signal islands at Canyon, Lake, Grant, Old Faithful
